

SNIT 2001

The plans are well in hand for the Summer Nuclear Institute at TRIUMF. It will be held between the 9th and 20th of July.

The lecture program is now established as follows:

- o Prof. L. Lyons (Oxford) - Statistics for Experimenters
- o Dr. J. Ng (TRIUMF)/Prof. J. Deutsch (UCLN) - Hot topics in particle physics at the precision frontier
- o Prof. P. Depommier (University of Montreal) - Spin, polarization
- o Dr. J. Behr (TRIUMF) - Atomic physics for nuclear physicists
- o Dr. M. Dombisky (TRIUMF) - Isotope production methods at ISAC
- o Prof. J. Klugge (GSI) - Mass measurement techniques*
- o Dr. S. Kahana (BNL) - RHIC Physics*

*** To be confirmed**
